TECHNICAL DATA SHEET

BEFORE HAND CLEANER

Thick, lotionized, effective all-purpose hand cleaner. For use on toughest, greasiest jobs, yet mild and pleasing to the skin. Can also be used as a protective barrier BEFORE starting work to prevent soil from imbedding into the pores of the skin. Use with or without water.

ADVANTAGES

• Cleans, softens, smooths, protects, and conditions. Contains no ammonia, skin-drying solvents, or abrasives.

• Removes dirt, oil, grease, ink, grime, tar, paint, adhesives, and gasket cement.

• Contains the antiseptic ingredient PCMX (Parachlorometaxylene).

• Pleasantly scented.

• Can be used with or without water, making it adaptable to any work environment.

DIRECTIONS

Used as a hand cleaner: Apply Before to dry hands. DO NOT wet hands first. Rub thoroughly into hands to liquefy embedded dirt, grease, and grime. Wipe off with a cloth or paper towel, or rinse thoroughly with water.

Protect: Rub a small amount of Before into skin before beginning work. Forms a protective barrier against soils. After work is done, apply again to hands. Work thoroughly into hands to liquefy embedded dirt, grease, and grime. Wipe off with a cloth or paper towel, or rinse thoroughly with water.

SPECIFICATIONS

Physical Form  Pearlized Viscous Liquid
Color  Pink
Scent  Lilac/Lemon
Specific Gravity  1.02
Density  8.51 lbs. per gallon
Foam Test (Lather)  Initial — 110 mm
                5 minutes — 100 mm
Viscosity  1600-2000 cps per 25°C
pH As Is  9.4

WARNING:
May be harmful if swallowed.
Causes eye irritation.
Keep out of reach of children.
